Application No. 10/529,381

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner proposed entry of an examiner's amendment, which would place this application in collion for allowance, particularly in view of the disclosure at page 10, lines 10 and 11, of the specification; Ms. Johns was unable to contact the Applicant for approval to authorize entry of the proposed amendment. Notably, the proposed amendment would have corrected the deficiency of earlier filed amendments; however, since an office action must be completed this day, the Examiner indicated that a Notice of Non-Compliant Amendment would be prepared and mailed in order to address the deficiency of the previously filed amendment.
